Brookline Housing Authority

June 22nd, 2021

Dear Resident:

Last Thursday, June 17th, 2021 at 3 PM, the BHA hosted a resident meeting on the new Colonel Floyd Apartments. At this virtual meeting, we presented plans for the interior unit design and programming of the common spaces of the proposed new development. The goal of this meeting was to gather resident feedback and thoughts on the design of certain aspects of the units. The meeting was led by the interior designer and project architects as well as members of the BHA Redevelopment team.

A recording of this meeting is available on the BHA website. To watch the recording, please visit <https://www.brooklinehousing.org/modernization.aspx> and click the button labeled "Colonel Floyd Redevelopment." On this webpage, please see under the heading "Colonel Floyd Resident Meeting on Unit Design: 6/17/21" for a link to view the recording.

The packet distributed last week contains the materials covered at the meeting. We want your feedback! Please mark up this document with your feedback and return it to the drop box in the Colonel Floyd laundry room by June 30th for collection. Please note that we are not able to customize units. But we want your input to be able to select layouts and features that reflect the majority opinion in the proposed new development. Without a lot of feedback, we are taking direction from only the small group that has provided input to date.

Please note one point of clarification that came up during the meeting: The steel refrigerator option does not allow for post-it notes and are not consistently magnetic. Bear this in mind as you indicate your preference for refrigerators.

You can also provide feedback via email at colfloyd@brooklinehousing.org. If you have any questions, leave a voicemail at 617-981-9370.

Sincerely,

A handwritten signature in black ink that reads "Maria T. Maffei".

Maria T. Maffei
Director of Redevelopment
